Preface: Scheme Summary Diagram

The diagram below shows the CARES Sustainable Construction Steels (SCS) Scheme documentation and the relationships between them.

This document is shown as the ‘SCS Scheme Manual’.
1 INTRODUCTION

1.1 CARES is an independent, multi-stakeholder, not-for-profit certification body, established in 1983 to provide confidence to the users, purchasers and specifiers of constructional steels. CARES operates for the benefit of the construction industry offering certification schemes for firms that produce materials, components or offer services, primarily to the constructional steel industry.

1.2 CARES launched its first Certification Scheme for Sustainable Constructional Steel in February 2009 to ensure confidence in the constructional steel performance across all the aspects of sustainability: economic, social and environmental. CARES is helping firms to safely and responsibly improve their sustainability performance with a systematic approach to management systems.

1.3 This manual presents the detail of the Certification Scheme for Sustainable Constructional Steel and describes the operating procedures for the assessment and management of sustainability aspects and responsible sourcing. The Scheme has been specifically developed for the steel supply chain using the most relevant performance indicators and it provides a method of rating approved firms using voluntary performance credit scores referred to as the CARES Rosette Rating System (RRS).

1.4 The Scheme provides a means by which approved firms in the constructional steel supply chain are able to declare product and organizational level sustainability performance.

1.5 The Scheme allows approved firms that produce constructional steel products to label them with the CARES Sustainability logo.

1.6 The Scheme enables CARES to collate information and publish a constructional steel sector sustainability report at least annually that demonstrates continuous improvement of the constructional steel supply chain against the relevant issues and sustainability principles.

1.7 A review of the Scheme and this manual is maintained by the Board of Management of the Authority, who will arrange for revised editions to be issued as necessary. Each revision of the manual will bear the date of issue.
2 DEFINITIONS

The terminology used throughout accords with BS EN ISO 14050 Environmental Management – Vocabulary and BS 8902 Responsible sourcing sector certification schemes for construction products – Specification.

2.1 Appeals Panel

A panel of the CARES Board of Management delegated by the Board to hear and consider appeals relating to the Scheme. The Panel appointed in respect of each appeal shall be selected from members of the Board (other than the Chief Executive Officer) and shall consist of a chairman and two members, none of whom shall have any commercial interest in the subject of the appeal.

2.2 Applicant

An individual, Firm, partnership or body incorporated or unincorporated which has applied for but has not yet been granted a certificate of approval.

2.3 Authority

The UK Certification Authority for Reinforcing Steels (CARES), a company limited by guarantee and registered under the Companies Act 2006 under Number 1762448, originally constituted on 18 October 1983.

2.4 Authority's Certification Mark

The CARES Sustainability Logo. The devices as shown:

[Image of CARES Sustainability Logo]

2.5 Board (Sector Scheme Council, as defined by BS 8902)

The Board of Management established as the governing body of the Authority under the Articles of Association and which may, under the articles of Association, delegate certain of its powers to subsidiary committees, which will be comprised of certain members of the Board and invited experts as required.

2.6 Certificate of Approval

A certificate issued under a specific serial number by the Chief Executive Officer on behalf of the Board recognising that the quality management system, environmental management system and the sustainable constructional steel Scheme operated by the Firm having been assessed by the Authority or its Agents is in accordance with these Regulations.
Section 2 - Definitions

2.7 Chief Executive Officer
The member of the permanent staff of the Authority appointed for the time being by the Board to be in executive charge of the Authority's operations.

2.8 Constructional steel
A semi-finished or finished steel product used for the reinforcement of concrete (in accordance with BS 4449, BS 6744, BS 4482 or BS 4483) or a structural steel product (in accordance with BS EN 10025) or hot rolled flat steel product (in accordance with BS EN 10025) or similar Standard.

2.9 Firm
An individual, Firm, partnership or body incorporated or unincorporated which has been granted a Certificate of Approval.

2.10 Group
All subsidiary holding or associated companies or subsidiary undertakings of all such holding companies operating in any capacity within the United Kingdom. For this purpose ‘subsidiary’, ‘holding company’ and ‘subsidiary undertaking’ shall have the meaning set out in the Companies Act 2006 and as amended from time to time ‘associated company’ shall mean body corporate in which the relevant party has a direct or indirect 20% beneficial interest in that body corporate's share capital.

2.11 Scheme Schedule (as defined by BS 8902)
The Scheme Schedule consists of the Sustainable Constructional Steel Scheme Manual and the Operational Assessment Schedules.

Sustainable Constructional Steel Scheme Manual
The certification requirements of the Sustainable Constructional Steel Scheme established in accordance with this manual. This Scheme is based on the demonstration of the continuing operation of the environmental management system consistent with the requirements of ISO 14001 and sustainability management system requirements detailed in the relevant Operational Assessment Schedule as specified by the Chief Executive Officer.

Operational Assessment Schedule
A document which amplifies and particularizes the requirements of the Scheme in relation to the specific manufacturing operations and processes or services involved in the provision of construction products and/or associated services.

2.12 Scheme
The certification requirements for the Certification Scheme for Sustainable Constructional Steel established in accordance with this manual which is based on the demonstration of the continuing operation of the sustainability management system consistent with the requirements of ISO 14001 and the relevant Operations Assessment Schedule as specified by the Chief Executive Officer.
3 OBJECTIVE

3.1 The assessment and certification system employed in the Scheme has been developed around the following principles:

a) Inclusivity, integrity, stewardship and transparency. These shall be reflected by characteristics/criteria appropriate to the constructional steel supply chain as well as ethical business practices. These will be measured at the product and organization level and will develop in line with different stages of the Scheme’s maturity with regard to sustainable development.

b) The Scheme is concerned with ensuring that approved firms operate to the highest quality, environmental and health and safety standards necessary to satisfy end users by attaining and maintaining quality, environmental and health and safety management systems that meet the requirements of ISO 9001, ISO 14001 and OHSAS 18001 or equivalent (OHSAS 18001 from 1st Jan 2017) respectively.

c) The responsibility for compliance with legal requirements and standards rests absolutely with the Firm.

d) The means of ensuring consistent compliance with the policies are the formal management systems which the firm must operate and implement to the satisfaction of the Authority and which are subject to assessment by the Authority at periodic intervals.

e) Development of products that improve the quality and sustainability of the built environment.

f) Effective management of all waste streams and minimization of waste disposed to landfill.

g) Minimization of pollution and emissions associated with production and transportation.

h) Protection and enhancement of the natural environment on site, adjacent to or affected by constructional steel production.

i) More efficient use of energy and reduction in ‘global warming potential/carbon footprint’.

j) More efficient use of primary materials and promotion of the recyclability of constructional steel products.

k) More efficient water use and minimization of demand on main water supplies.

l) Respect internationally recognised norms and standards concerning human rights and workers conditions.

m) Effective engagement with local communities and other stakeholders to understand risks and opportunities.

n) Enhancement of sustainable economic growth, ethical business practices and good corporate governance in the constructional steel supply chain.

o) Enhancement of responsible sourcing in the constructional steel supply chain by providing a means of assessing and improving sustainability performance for Firm’s suppliers.

p) Measurement, reporting and improvement of performance on sustainability issues.

At least once per year the approved firm shall assess its level of performance against the sustainability principles using a maturity matrix.

3.2 The Scheme has been specifically developed for the constructional steel supply chain using the most relevant performance indicators and the objectives of the Scheme are as follows:
Section 3 - Objective

a) to provide a means by which construction clients can be assured that approved firms have produced and processed the product in line with the sustainability principles,
b) to provide a means by which approved firms in the constructional steel supply chain are able to declare product and organizational level sustainability performance,
c) to undertake a review, at least biennially, to ensure continuous improvement of the constructional steel supply chain against the relevant issues and continuous improvement against the sustainability principles,
d) to undertake regular and relevant public reporting, at least annually, to ensure continual improvement of the constructional steel supply chain against the relevant issues and sustainability principles,
e) to facilitate sustainable procurement in accordance with the requirements of BS 8903:2010 Principles and framework for procuring sustainably – Guide.
f) to provide the means to enable others in the Firms supply chain to improve their assessment and management of sustainability aspects and issues.

3.3 The Scheme is implemented by the Authority and applies to suppliers of construction products and/or associated services who supply to the appropriate and relevant published standards as determined by the Authority.

It is intended that the requirements of the scheme are rigorous and certification will be an indication of commitment by the firm aimed at continuous improvement against sustainable development principles, in particular economic, social and environmental impacts of materials.
4 ORGANISATION

4.1 Administration of the Scheme is by an independent Board of Management, hereafter referred to as the Board. The Board is responsible for policy and all matters arising from the Scheme’s operation. The policy of the Authority is to operate this scheme in accordance with the principles and criteria of the United Kingdom Accreditation Service (UKAS) and the requirements of the conformity assessment standard BS EN 45011:1998 General requirements for bodies operating product certification systems and the sustainability standard BS 8902:2009 Responsible sourcing sector certification schemes for construction products – Specification. It is aligned to the requirements of ISO/IEC Guide 59 Code of good practice for standardization and ISEAL code of conduct and code of good practice for social and environmental standards v6.

4.2 The Board is composed of three executive directors and four non-executive directors and is chaired by an independent Chairman. Two of the non-executive directors are nominated by the Members of CARES and two are nominated by the Chairman and Chief Executive Officer (CEO). The Members are organisations representing the interests of clients and owners, producers and processors, designers, contractors and specifiers. The Board fulfils the purpose of the Sector Scheme Council as defined in BS 8902. The Board is ultimately responsible for stakeholder identification and engagement, as defined in BS 8902.

4.3 The Board is advised by a number of committees, one being the Policy Advisory Committee (PAC). A primary function of the PAC is to ensure the Board is made aware of the views of interested parties regarding policy and strategy and also to receive issues as reported by the Board. It also maintains a review of the finances and financial structure of the Authority and other elements of business as performed by the Authority including the examination and approval of the development of certification schemes and supporting schedules.

4.4 The Sustainability Committee is the permanent technical committee which acts on behalf of the Board and reports back as appropriate. The Sustainability Committee is delegated by the Board to contribute to the process of stakeholder engagement, as defined in BS 8902, and to establish and review, at least annually, the Scheme Schedule. The review shall include the Scheme’s sustainability principles, responsible sourcing issues, objectives, targets and the CARES operational assessment schedules.

4.5 A Chief Executive Officer (CEO), appointed by the Board, is responsible for the granting of, and where necessary, the withdrawal of certificates of approval, in accordance with the operating procedures and regulations of the Authority. He/she is responsible for the routine business activities of the company, direct co-operation with purchasers, suppliers and inspection bodies and the publication of a list of all those Firms holding certificates of approval.

4.6 The Chief Executive Officer (CEO) may, from time to time, appoint external inspection bodies to act as agents of the Authority for the purposes of assessment and surveillance. He is an ex-officio member of the Board.
4.7 The Authority is based at the following address:

Pembroke House
21 Pembroke Road
Sevenoaks
Kent, TN13 1XR

Tel: 00 44 1732 450000
Fax: 00 44 1732 455917
E- Mail: general@ukcares.com
Website: www.ukcares.com
5 OPERATING PROCEDURES

5.1 General

A Firm which claims to be able to satisfy the qualifying requirements may apply for the recognition of its ability to implement a sustainability management system which enables it to formulate a policy and objectives that take into account the significant and relevant sustainability impacts of their activities. The Authority then assesses each application and when satisfied, issues a Certificate of Approval. The CARES logo shall only be used in conjunction with the serial number of the relevant certificate of approval. The CARES certification marks include the CARES logo, the UKAS registration number logo and the unique CARES mark on the product itself. Traceability mechanism is designed to be rigorous and is based on these marks and the system traceability on Quality and Environmental Management System certification. Rules for the use of the CARES certification marks and details of the assessment procedures are contained in Section 7 and 9 of this manual.

5.2 Applying for a Certificate of Approval

5.2.1 Applications for a certificate of approval are made to the Chief Executive Officer stating the Standards for which certification is being sought. The applicant is required to have and be able to demonstrate:

a) A valid CARES product certification certificate for constructional steel manufacturers and/or processors or a product certification certificate acceptable to CARES. For manufacturers of billets, blooms and slabs, they shall be in possession of a valid ISO 9001 certificate from CARES or other authorities acceptable to CARES. For manufacturers of structural and hot rolled flat steels, they shall be in possession of a valid factory production control certificate consistent with BS EN 10025 Annex ZA or certification acceptable to CARES.

b) The technical ability and resources required to meet the requirements of the relevant Operational Assessment Schedule.

c) An environmental management system consistent with the requirements of ISO 14001 together with such operational assessment schedules as defined by the Authority.

d) A proven ability to satisfy the sustainability policy and objectives.

e) A public commitment to the sustainability principles.

5.2.2 Applications for CARES approval shall include:

a) A completed application form including a signed declaration (Section 8)

b) The appropriate application fee (Section 10)

c) A sustainability management system (in form of a manual in any format and media), and where appropriate, documented information.

The procedures for application, assessment and maintenance of approval are detailed in Section 9 of this manual.
5.3 **Assessment of application**

5.3.1 The purpose of the assessment is to establish that the applicant Firm has the capability to and does meet with the Authority's requirements.

5.3.2 The Firm’s application will be subjected to an initial review by the Authority. This review will be based upon the application documentation, Section 8, and such additional evidence as may be required by the Scheme. The review will include a ‘desk-top’ study of the application details, followed by a Stage 1 audit at the Firm’s works or premises. A favourable review will be followed by a Stage 2 audit to confirm, by examination, that the described arrangements are being worked to and are effective.

5.3.3 If, at the stage of the initial review of the application, or at any stage of the assessment thereafter, the Authority takes the view that further work cannot justify the expense of proceeding further; the Firm will be notified and given reasons.

5.3.4 The assessment will be conducted by specific management representatives of the Firm and the auditors of the Authority. As a minimum, the Stage 2 audit programme will provide for:

   a) An introductory meeting with the applicant Firm during which the assessment procedures will be explained by the auditors.
   b) A timetable of activities so that arrangements can be made for appropriate staff to be available during the assessment.
   c) Full assessment in accordance with Section 9.
   d) A final (closing) meeting at which the auditors will present their findings to the applicant Firm.

5.3.5 A recommendation for approval will be produced when the applicant Firm is considered to be in compliance with the requirements of this Scheme, including when all the reported deficiencies have been addressed to the satisfaction of the Authority.

5.3.6 The Firm's application, the Stage 2 audit report, including reports of corrected deficiencies and a recommendation for approval will then be considered by the Chief Executive Officer. When the Chief Executive Officer is satisfied that the Firm meets the requirements of the Scheme, a certificate of approval will be issued.

5.3.7 If approval is withheld, the reasons for this will be communicated to the applicant, together with recommendations for any corrective action which needs to be implemented before the application can be reconsidered. Should an applicant wish to appeal against the withholding of the certificate of approval, the appeal will be heard in the manner described in the Regulations of this scheme.

5.3.8 From the time of the application through to the time of issue of the certificate of approval, the applicant Firm shall operate in accordance with the requirements of this Scheme. It shall, during this period, refrain from using the CARES name in conjunction with its products or services. Failure to do so may result in invalidating the application and aborting the assessment.
5.4 Certificate of Approval

5.4.1 The certificate of approval is valid for one year with renewal subject to the holder’s continuing satisfactory performance. The certificate of approval will state:

a) The scope of the approval

b) The name of the Firm and location(s) of the works/premises to which it applies.

c) The certification number applicable to the Firm.

5.5 Maintenance of certification

5.5.1 It is a condition of the granting of the certificate of approval, that the Authority shall assess each element of the management system for sustainability at least once every three years. This shall generally be via one audit within a twelve month period, the results of which will be reported to the approved Firm. If these audits show that the Firm continues to comply with the requirements of this certification scheme, as amended from time to time, a certificate of approval will be re-issued at the beginning of each year. The Chief Executive Officer reserves the right to request further visits. Firms approved under the Scheme, as appropriate, shall undergo a triennial reassessment of their sustainability management system by the Authority.

5.5.2 If required by the purchaser the Firm shall provide a copy of its certificate of approval.

5.6 Withdrawal of the Certificate of Approval

The decision to withdraw a certificate of approval is made by the Chief Executive Officer. After the decision, and if the withdrawal is solely at the behest of the Authority, the Firm in question has the right to appeal to the Appeals Panel. A twelve month period must elapse before any Firm, who has been removed from the approved list due to such withdrawal, can re-apply for approval.

Examples of the reasons for withdrawal of the certificate of approval are:

a) Frequent non-compliance with any of the specified properties or other criteria specified in the relevant Standard.

b) Uncorrected deficiencies noted during a surveillance visit.

c) Misuse of the certification mark or failure to use them.

d) Refusal to allow the Authority to carry out inspection or hindrance of these activities.

e) Refusal to produce documentary evidence of monitoring results.

f) Circumstances which may affect the confidence of the public or authorities on the reliability of the Scheme.

5.7 Records

The Authority will maintain confidential records relating to assessment, auditing and approval of applicant and approved Firms. These records are not available for issue to third parties except due to legal requirements or with the expressed permission of the Firm, which must be provided in writing to the Chief Executive Officer. A summary of collated audit findings will be published periodically.
Section 6 - Costs

6 COSTS

6.1 The Scheme will be operated on a not-for-profit basis. Fees to cover costs of the Authority's operations will be levied on Firms applying for a certificate of approval. These are detailed in Section 10 of this manual.

6.2 Fees will be levied in respect of the following:

**Assessment:**
- An application fee which is non-returnable and is to accompany the application for approval.
- A certification fee which covers initial approval.
- Triennial Carbon Footprint Report levy or Triennial Environmental Product Declaration levy

**Maintenance of approval**
- An annual levy for the maintenance of approval.

6.3 The Board of CARES reserves the right to adjust the fees being levied. Adequate notice will be given as to any impending change.

6.4 The approved Firm will be charged by the Authority for the costs incurred in carrying out any audit or inspections at the works/premises.

6.5 Charges for audits and inspections may be made to the applicant/approved Firm before the work is carried out by the Authority, should this be considered appropriate.

6.6 The CARES Standard Terms of Business, as amended from time to time, shall apply.
Section 7 - Regulations

7 REGULATIONS

7.1 These Regulations relate to the CARES Sustainable Constructional Steel Scheme, hereinafter called the Scheme.

7.2 For the purposes of these Regulations the Definitions of the terms used are set out in Section 2 of this manual.

7.3 The Board of Management is the sole authority by which certificates of approval may be granted or withdrawn, and acts through the Chief Executive Officer who, for the purpose of making assessments under these Regulations, may from time to time delegate his functions to individuals whom he may appoint or remove as he may deem necessary subject to such conditions as the Board of Management may from time to time impose.

7.4 An applicant Firm which satisfies the Chief Executive Officer that it is capable of compliance with the Scheme and that carries on a bona fide business and provides such undertakings as the Chief Executive Officer may require shall, subject to complying with the conditions of these Regulations as amended from time to time and such undertakings, be entitled to a certificate of approval which shall nevertheless remain the property of the Authority. Approved application procedures are set out elsewhere. Initial certificates are valid from the date of issue until the end of the current calendar year. Thereafter certificates are issued at the beginning of each calendar year and are valid for the following twelve months subject to the terms of these Regulations as amended from time to time. If a Firm does not intend to renew its certification at the end of any year of registration it must inform the Chief Executive Officer in writing with a minimum of one calendar month's notice of its intention not to do so. A Firm's right to use the certificate of approval is not transferable without the permission in writing of the Chief Executive Officer. The certificate of approval shall, unless prior written approval for its transfer has been granted by the Chief Executive Officer, be returned to the Chief Executive Officer at the end of the year of registration if the certificate is not renewed.

7.5 A Firm shall:

7.5.1 at all times comply with these Regulations as amended from time to time.

7.5.2 use the Authority's certification marks, in accordance with the conditions defined in Regulation 7.16, only in respect of the operation of processes or the offering of services which are the subject of the certification of approval at or from the addresses stated on the certificate.

7.5.3 establish, implement and maintain a management system for sustainability in accordance with this manual, and make available documented information of all or any part of the system should the Chief Executive Officer require it to be lodged with the Authority for reference purposes.

7.5.4 report, in writing to the Chief Executive Officer of the Authority, any changes in practice or conditions from those pertaining at the time of a satisfactory assessment leading to approval. The Firm shall have received confirmation, in writing from the Chief Executive Officer, that such variations do not render the certificate invalid.
Section 7 - Regulations

7.5.5 discontinue any use of the Authority's certification mark which is unacceptable to the Chief Executive Officer and any form of statement with reference to the authority of the Firm to claim compliance with the Scheme which in the opinion of the Chief Executive Officer might be misleading.

7.5.6 give representatives of the Authority access during normal working hours to sites in which work, the subject of the certificate of approval, is being carried out for the purpose of examination of materials, processes, finished articles, methods of test, records, details of internal audits and systems, or establishing that the procedures for the termination of approval described in Regulation 7.5.7 have been carried out if necessary.

7.5.7 nominate for the approval of the Chief Executive Officer a management representative and one or more deputies authorized to act in the main nominee's absence (and replacement nominees as may be necessary) who shall be responsible for all matters in connection with the requirements of the certificate of approval and who shall, upon each visit by the representatives of the Authority, sign a declaration to the effect that any changes in production or other information relevant to the conditions under which the certificate of approval is held have been notified to the Authority.

7.5.8 upon the withdrawal of the certificate of approval (however determined) forthwith discontinue the use of each of the Authority's certification mark and all advertising matter which contains them or any reference thereto. In addition, any other documents in the possession of the Firm which bear reference to the certificate shall, if the Chief Executive Officer requires, be so treated to erase it.

7.5.9 comply with all criteria specified in the relevant Standards. Repeated failure to comply with any of the above specified properties will be cause for withdrawal of the certificate of approval.

7.5.10 correct deficiencies noted during a surveillance visit.

7.5.11 not conduct its operations in a manner which may affect the confidence of the public or authorities in the reliability of the Scheme.

7.5.12 report annually the number of complaints received from external parties and the results of the investigations.

7.5.13 report annually the number of incidents reported to external regulators and the results of the investigations.

7.5.14 report annually the Firm’s performance against the CARES sustainable constructional steel criteria in the format prescribed by the Authority.

7.5.15 permit the Authority to use the data submitted against the CARES sustainable constructional steel criteria in a non-attributable way to undertake regular and relevant public reporting.

7.5.16 provide the means to enable others in the Firms supply chain to improve their assessment and management of sustainability aspects and issues.
7.6 **The Firm shall pay:**

7.6.1 an application fee (to accompany the application for a certificate of approval).

7.6.2 a certification fee (to cover initial approval).

7.6.3 a Triennial Carbon Footprint Report levy or Triennial Environmental Product Declaration levy

7.6.4 the additional costs of visits, assessment, surveillance and supervision incurred by the Board and its agents.

7.6.5 an annual levy (for the maintenance of approval) as determined by the Board from time to time. The Board reserves the right to adjust the fees being levied.

7.6.6 any additional costs incurred by the Authority due to the Firm’s non-compliance with these Regulations.

7.7 **The Chief Executive Officer shall:**

7.7.1 send a representative to the Firm at his discretion, but in any case not less than once within a twelve month period in which the Firm is manufacturing goods, operating processes or offering a service for which it holds a certificate of approval for the purpose of verifying that the obligations imposed by the Scheme are being carried out.

7.7.2 notify the Firm of any changes in this manual and give the Firm such time as, in the opinion of the Board of Management, is reasonable in which to adjust its processes and relevant procedures to meet the revised requirements.

7.7.3 not disclose any information concerning the Firm which is of a confidential nature, other than information which is in the public domain.

7.7.4 notify the Firm at his discretion of complaints relating to the compliance of such processes or services to which the certificate of approval applies.

7.8 If a Firm is unable to comply with the requirements of these Regulations as amended from time to time, the Chief Executive Officer may require the Firm to discontinue the use of either or both of the Authority's certification marks or any claim of compliance with the Scheme with immediate effect until he is satisfied that compliance is again achieved, or pending the result of an appeal under Regulation 7.12.

7.9 If the Firm fails to comply with these Regulations as amended from time to time the Chief Executive Officer may, subject to the provisions in Regulation 7.12, as appropriate:

7.9.1 suspend, withdraw the certificate of approval or reduce the scope, or

7.9.2 refuse to grant or renew the certificate of approval or extend the scope.

Such decisions, and the grounds for them, shall be communicated to the Firm in writing.
Section 7 - Regulations

7.10 The Chief Executive Officer may, at his sole discretion, and subject to the provisions in Regulation 7.12, withdraw or refuse to grant or renew a certificate of approval if the Firm becomes subject to a change of ownership, the bankruptcy laws or makes any arrangements or composition with its creditors, or enters into liquidation, whether compulsory or voluntary or has a Receiver appointed. Such decisions and the grounds for them shall be communicated to the Firm in writing. The Chief Executive Officer, before renewing or granting a certificate of approval, may insist the Firm undergoes a re-assessment, resubmitting the information as laid down in Section 8.

7.11 In the event of a Firm wishing to appeal against any decision of the Chief Executive Officer under these Regulations, it shall, within 14 clear days after having been officially informed of such a decision, give notice in writing to the Secretary of the Board of Management of its desire to appeal against that decision and grounds for doing so. A meeting of the Appeals Panel shall be held within 30 clear days of receipt of such notice and the appellant shall be given at least 7 clear days' notice of the time and place of such a meeting. The decision of the Chief Executive Officer shall stand, pending any meeting of the Appeals Panel. At such a meeting both the appellant and the Chief Executive Officer shall be entitled to be heard in confidence. The decision of the majority of the Appeals Panel as declared by its Chairman shall be final.

7.12 These Regulations may from time to time be altered by the Board of Management. No such alterations shall affect the right of any Firm to use the Authority's certification or claim compliance with the Scheme unless it shall have been given notice in writing of such alterations by the Chief Executive Officer who will notify the Firm of the date by which it must comply with the altered Regulations, which shall not normally be less than six months from the date of notification of the alterations.

7.13 A register of approved Firms shall be kept by the Authority and shall be open to inspection by the public at the website or at the registered office of the Authority.

7.14 Any notice under these Regulations shall be in writing and signed by or on behalf of the party giving it and may be served by leaving it or sending it by prepaid recorded delivery or registered post at or to its address for the time being (registered office where applicable). Any notice so served by post shall (unless the contrary is proved) be deemed to have been served forty-eight hours from the time of posting; and in proving such service it shall be sufficient to prove that the notice was properly addressed and was posted in accordance with this clause.

7.15 The holder of a certificate of approval approved under this Scheme shall use the relevant CARES certification mark, as described in Section 2 of this manual. A company shall use the mark as follows:

7.15.1 The certification mark is not transferable and shall only be used in conjunction with the company and works name shown on the certificate of approval.

7.15.2 The CARES logo shall at all times incorporate the certificate number allocated to the company.
7.15.3 Use, where appropriate, the certification marks in advertising and correspondence with the exception that the Crown and Tick may not be included in promotional goods. The logo may appear in any of the colours of the logo.

7.16 All Firms shall:

7.16.1 notify the Authority of any hazards or risks to which the Authority’s representatives may be exposed when visiting the Firm.

7.16.2 provide the Authority’s representative with the necessary protective equipment and instruction in its use.

7.16.3 shall be responsible for the Authority’s representative’s collection from and return to the airport, port or other location and for their safekeeping and well-being during their visit.

7.17 The Authority reserves the right to delay, suspend or cancel a Firm’s certification where it is thought the health and safety of their representatives may be at risk.
8 APPLICATION AND DECLARATION

A completed application, including the declaration, signed on behalf of the Firm, by a director or officer of the company and an application fee, should be sent to the Chief Executive Officer of CARES. The following details must be completed in the English language. Please type your answers, or write in capitals in black pen, and answer all questions. A version of this form is available in Microsoft Word from the CARES Office.

8.8 Additional information, please add any relevant information (all Applicants):

8.9 Declaration (A copy should be retained by the Applicant)

8.9.1 In the event of being accepted for consideration for certification, we undertake to demonstrate our ability to comply with the requirements set out in the Scheme.
Section 8 – Application and Declaration

8.9.2 In the event of being granted a certificate of approval we further undertake to:

a) abide by the regulations as amended from time to time by the Board of the Authority

b) pay the fees and costs required by the Board

c) accept periodic inspections by the Board and its agents

d) report immediately to the Chief Executive Officer of the Authority any changes in practice or conditions from those pertaining at the time of the satisfactory assessment leading to approval

e) respect all changes in Standards and scheme requirements for which approval to manufacture and supply has been given

8.9.3 The acceptance of our application shall constitute a contract between yourselves and the Authority, but not between ourselves and any other applicant for, or holder of, a certificate of approval.

8.9.4 In the event of being granted a certificate of approval, we understand that we are responsible for complying with the Scheme regulations as amended from time to time and ensuring all goods and services supplied under the certificate of approval comply with such regulations and are fit for use. In addition we confirm that we will not make or be involved in, directly or indirectly, any claim against the Authority whatsoever and we undertake to keep the Authority, its Board of Management, officers, employees and agents fully indemnified against any losses, liabilities, costs, claims, actions and demands, which they may incur or which may be made against them as a result of or in relation to any actual or alleged breach by us of the regulations as amended from time to time or as a result of or in relation to any use of the Authority’s certification mark or failing to comply with the assessment requirements of the Authority as amended from time to time.

8.9.5 This undertaking and the regulations of the Authority (together with all other documents referred to therein) shall be governed by, and construed in accordance with, English law. We hereby submit to the non-exclusive jurisdiction of the English courts for all purposes connected herewith.
